

Saluting frontline energy workers

Improving energy efficiency

# STORIX

At Storix, we're committed to providing cutting-edge power solutions that enhance efficiency and sustainability. Our innovative approach empowers businesses to thrive while minimizing their environmental impact.

About Us

Energy Loss Demo

## A little of a lot is still a lot

Every year, \*\*\* **GWh of energy** is lost during the energy transmission process. That's enough energy to sustain \*\*\* **households for \*\*\* years!**

A large part of this is because as electricity is transmitted, the wires **heat up** causing **\*\*\*% of energy** to be lost to the environment in the form of **heat**.

As the world consumes **\*\*\* GWh of energy**, that tiny percentage becomes **ASTRONOMICAL!**

At Storix, we decrease that percentage  
**ever-so-slightly**

helping to save **\*\*\* MWh of energy**  
once our product is used everywhere worldwide
